1. The Ministry of Metallurgy and Machine Industries is divided into the following directorates(Igazgatóságok):

- a. General Machine Industry (Általános Gépipar), which controls all enterprises engaged in the production of heavy machinery.
- b. Electrical Power (Erőszár), which controls all electrical engineering works.
- c. Telecommunications (Híradástechnika) which controls the production of all radio, telephone, etc.
- d. Industrial Machinery (Üzemgépeszet), which controls small foundries and engineering works.
- e. Mass products (Tömeggépipar), which controls mechanical engineering works producing machine parts, tools, and implements.
- f. Transportation (Járműipar), which controls all transport engineering enterprises.

2. The following personalities are known:

- a. Gábor Halabrin, head of the Industrial Machinery Directorate, approximately 56 years old, an ardent Communist, and a Party member. He was employed as a common laborer in a foundry and machine factory and later became manager of the Szoprana factory in Pécs.
- b. István Török, chief of the technical department of the Industrial Machinery Directorate, is 30 years old.
- c. Mrs. Frank (fnu), chief of the planning section, is approximately 28 years old.
